

# **Driving Questions**

Why Continue Strategic Planning *Now*?

Rev. Cameron Barr, Senior Pastor

March 2019

- 1. What does it mean for us that the *La Mesa* service has more than doubled in size in only one year? How will our structures of governance and ministry need to change to provide leadership opportunities and voice to everyone who worships at United Church of Chapel Hill?**
- 2. How will United Church of Chapel Hill continue to grow as an antiracist and multicultural congregation and institutionalize/operationalize our commitments to racial equity?**
- 3. What is needed for the continued vitality and growth of our rich program of discipleship ministries, especially our programs for children and youth?**
- 4. How can we build a stronger web of relationships throughout the life of the church so that every member and household feels a strong spiritual connection with the heart of our ministry?**
- 5. How will United Church attract the financial resources it needs for sustainable ministry in the coming years and what goals should we set for capital and operational funding?**
- 6. What is a desirable size for the congregation in terms of membership and how aggressively should we set those goals?**
