**2020 Financial Update**

Doug Bruce, Treasurer, Anne Stoddard, Chair, Trustees

- Doug Bruce gave an overview of the church's current financial status. Overall, finances are good, and expenses are less than budgeted. This has resulted in about a \$48,000 surplus, which is typical for this time of year. Non-pledge funds that have been raised for outreach, which includes the Spreading Justice Initiative, is just over \$70,000. Ian McPherson provided an update on the applications for Spreading Justice. Most requests for funding are at the level of about \$500. There is an ebb and flow of in the number of requests received weekly. Since there are funds remaining, the pastors will continue to circulate the link to let people know that funds are still available and how to apply. Reverend Carl Kenney, whose organization received ~\$9000 from the Initiative expressed his gratitude via a letter to the church.

- Gaylen informed us that we do have \$100,000 loan, part of which may be forgiven. The amount that is forgiven essentially becomes a grant. There will be some discussion about how these funds might be applied to our needs in the next few meetings.
- Gaylen also led the discussion of the possibility of a monetary gift to the Southern Conference. The church provides regular donations to the Conference but have needed to reduce these amounts in the past couple of years. In the past year, our church has accessed their services for support and funds are likely to be available, making this gift timely. Trustees, along with MES will do some scenario planning and come back to Council with suggestions on how to proceed, re, amount and timing of this gift.
- Gaylen Brubaker – budget process. The budget process this year may be a bit different this year than last. Last year, we proposed an aspirational budget and then pulled back to meet pledge levels. This year, scenario planning will be used to align the budgeting process with program needs and anticipated revenue.

They focused on achievements, lessons learned and outlined some expected challenges in the near future.
